PRODUCT SAFETY SHEET page 2 of 2

9. PHYSICAL PROPERTIES

Form @25°C:	Tablet	Odour:	Slight
pH:	Acidic in solution	Appearance:	Flecked tablet
Boiling point:	NA	Relative density:	
Vapour pressure @ 20°C	NA	Solubility:	Part soluble

10. STABILITY / REACTIVITY

Stability:	Stable
Incompatibility:	Avoid contact with zinc and galvanise steel. Strong alkalis may inactivated cultures
Hazardous by products:	None
Hazardous polymerization:	Will not occur

11. TOXICOLOGY

Microbial formulation - The product is formulated using a range of naturally occurring micro-organisms that are known to be non-pathogenic to humans or animals. These micro-organisms have not been genetically engineered in any way. The product has been shown to be free of Salmonella using procedures laid down by the AOAC & USDA. The product is considered to be non-toxic. May cause irritation to sensitive skin, contact with open wounds may cause infection. May be harmful to aquatic environment in high concentrations.

12. ECOLOGICAL INFORMATION

Biodegradability:	The formulation is biodegradable.
Accumulation:	Not known to accumulate in the environment. The product is soluble and will disperse in the aquatic environment.
Dispersal:	May be harmful to aquatic environment in high concentrations

13. DISPOSAL CONSIDERATION

The product is biodegradable. Small quantities can be washed away using water. Local authority requirements should be checked before disposal of large quantities. Packaging can be recycled and should be disposed of according to local regulations to land fill or incineration

14. TRANSPORT INFORMATION

UN No:	None	IMDG Code:	Not classified
ADR/RID:	Not classified	ICAO/IATA:	Not classified
Shipping name:	None		

15. REGULATORY INFORMATION

Supply Label Details

Label Name:	Bio-Fizz
Symbols:	Xi-irritant Classified as dangerous according to criteria laid down by council directive 1999/45/EC
Risk Phrases:	R36: Irritating to eyes S26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
Safety Phrases:	None
